

TDSHS Proposed Rule Changes for Radioactive Material

You may have received correspondence from the Texas Department of State Health Services regarding proposed radiation rule changes. These proposed rule changes **do not** apply to fixed gauge licensees.

Amendments to 25 TAC 289.252 Licensing of Radioactive Material & 25 TAC 289.257 Packaging and Transportation of Radioactive Material include: changes to update, correct, improve, or clarify rule citation references, terminology, language and format consistency, grammar, and minor typographical and formatting errors.

To view the proposed changes, [click here](#) to view the PDF, or visit <https://www.dshs.texas.gov/radiation/proposed-rules.aspx> for additional information.

If you have any questions or concerns, call (281) 338-2133 to speak with one of our Radiation Safety Consultants or reply to this email.

Suntrac also offers **sealed source leak testing, meter calibration, repair and sales, personnel radiation monitoring (dosimetry), and radiation safety training**, please visit www.suntrac.com for more information on additional services or give us a call at 281-

338-2133.
